

Design week 2

By Najib, Dewi, Alwan and Marc

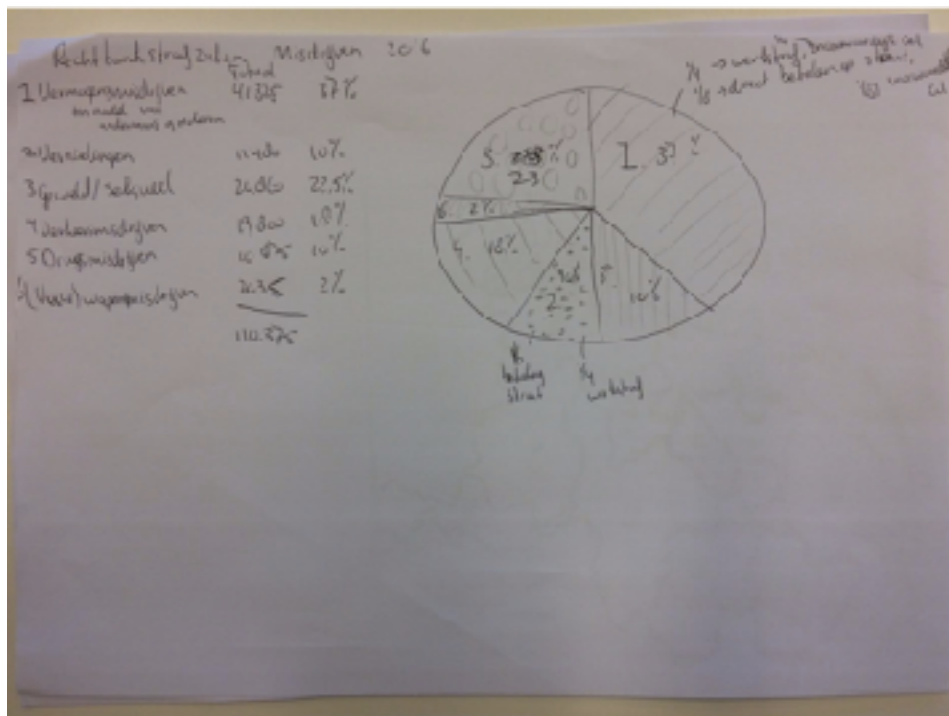

This is suspects of crimes in 2017. On the y-axis you can read the amount of suspects, x-axis their age groups. Most are between 25-45.

This is about criminals, and their backgrounds. There is a difference between autochtonen and allochtonen (which is separated between western and non-western as well).

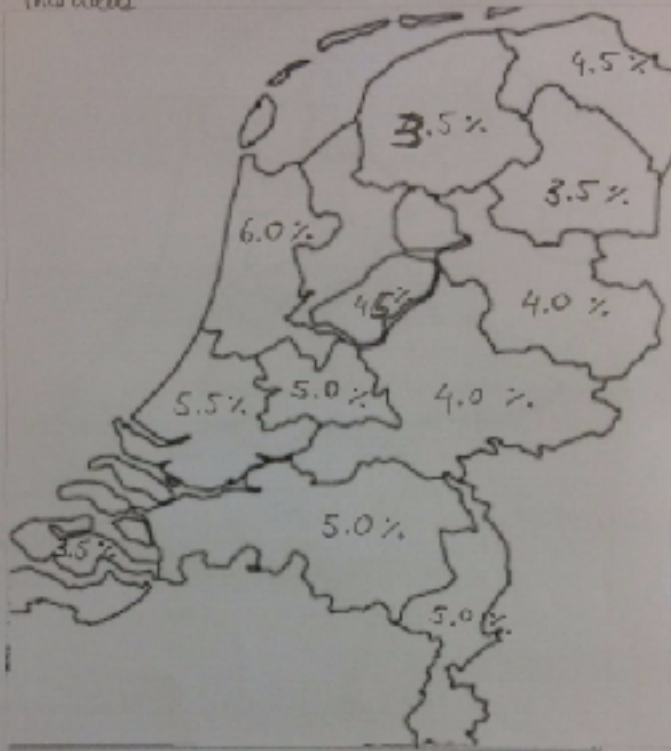

This second image is about all crimes committed, and what kind.

This second image is about all crimes committed, and what kind.

This image is about the feeling of unsafety, per province.

misdad

Murders, over provinces.
